AIR FORCE MOL POLICY COMMITTEE

Highlight Summary
of
Agenda Items for Meeting 66-3, May 20, 1966

1. Old Business: The previous meeting covered a status summary of the Unmanned System Study; NASA Uses of MOL; NASA SIVB Workshop Proposal; and MOL Priority. An interim report was presented on the Review of Program Schedules and Costs.

Of the alternative MOL schedules and costs presented, the Committee specified two options to be investigated in detail and presented at the next Committee meeting. These options were essentially seven-shot programs with first manned flights, including fully qualified DORIAN optics, to be in April 1970 and December 1969.

2. MOL Schedules and Costs: The briefing will cover in detail the specified options and the related program costs. Recommendations of the Director, MOL will be presented for consideration by the Committee.

Committee Action Requested: Approve the presentation and recommendations which will be given to DDR&E on May 21, 1966.
